“Your staff are the most valuable aspect of your business; the SL1100 can make them more productive from day one”

Why choose the SL1100?

This unique platform is the ideal solution for any small business. The SL1100 makes your team more reachable, more responsive and more productive.

Value for Money

- Powerful communications with a small business price tag
- Only pay for what you need, with an entirely scalable solution
- Lower running costs considerably by making smarter use of your communications

Easy to use

- Intuitive features that the whole team can use, without the need for training
- Handsets and applications include shortcuts that speed up working processes
- Time-saving applications empower your team to become more productive

Lean and Green

- Energy efficiency mode, contributing to a healthier environment
- Built-in conferencing for a greener approach to business meetings
- A range of home working options to help lower fuel emissions

Keep them connected

- Use your mobile to stay contactable on your office number, from anywhere
- DECT wireless communications from anywhere on the premises for maximum reachability
- Never miss a thing, with enhanced voicemail to keep you up to date

“Intuitive handsets with time-saving features, helping you to work faster”

Keeping your team in touch

Internal Sales Person

"The Auto-Attendant feature means that callers receive a greeting and are routed to the correct department, ensuring that I only get the calls that are meant for me."

Office Worker

"The conference feature allows me to effortlessly set up a virtual meeting for colleagues at short notice, wherever they are. This enables faster business decisions, as well as saving travelling time and expenses."

Warehouse Manager

"The wireless DECT handset allows me to stay in touch while moving around the warehouse, making me more responsive. I can even make and receive calls with the HQ free of charge."

Security Guard

"The door-phone functionality makes it easy for me to operate the feature from my mobile if I need to go off-site temporarily."

IT Manager

"It's easier than ever to manage our system settings. Drag-and-drop functionality provides an error free way of building call groups, which is useful for when staff move desks, leave or join the company."

“The SL1100 can make your entire workforce more productive, wherever they are”

Team Manager

“With MyCalls I can view detailed call activity of my team. We can use the statistics provided to reduce abandoned calls, and follow up any that we’ve missed.”

Receptionist

“With Caller ID displayed on my handset, I can give the appropriate greeting to callers and redirect calls from familiar numbers without answering, straight to the relevant colleague.

The Busy Lamp Field buttons on my handset enable me to view the call status of each colleague, meaning that I can prevent wasting time trying to contact somebody who is busy on a call”.

Home Worker

“I can use my handset at home to communicate with colleagues with the same ease as if I was in the office” (IP version only)

Mobile Sales Person

“I can be on the road and stay contactable on my office number using my mobile phone, meaning that I don’t miss an important enquiry.”

Stay connected on the move

Remain contactable on the same number wherever you are

Mobile Extension:

Be in when you're out

With a Mobile Extension, you can carry your office number with you when you're on the road. With access to system features such as caller ID, call transfer and voicemail, it really is like being in the office, whether you're travelling, on leave or stuck in traffic.

Get more out of your team

Company specialists can now be empowered to maintain high service standards when out of the office, helping you make the most of your most valuable members of staff.

Never miss a sales call

Salespeople can use Mobile Extension to ensure that even when they're on the road, they never miss out on a call which could lead to a lucrative business opportunity.

Wireless DECT:

Maintain service levels when away from your desk

With DECT handsets for wireless voice communications, you can move around the office and remain reachable, so you don't lose touch with colleagues or customers.

“Maximise the reachability of your team”

More than voicemail

Advanced features for enhanced communications

What is InMail?

InMail is more than just a regular voicemail box. Packed with powerful business features, this is a solution to make keeping up to date easier than ever.

A record for when you need it

Using Conversation Recording, you can keep track of important discussions. Recordings can be emailed to colleagues and stored for quick reference.

Keep your customers and colleagues up to date

Whatever you're up to, you can have the right recorded message to match. With three Personalised Greetings,

you can select them depending on your availability or the time of day. For example, announce if you are out of the office, on annual leave, and even suggest an alternative contact.

Never miss another message

With Message Notification to your desk phone, home office or mobile phone, you can monitor your mailbox effortlessly wherever you are. You can even choose to receive email notification with the message included as an audio attachment.

“Voicemails can be accessed from system phones, mobiles and even email inboxes”

Work Smarter

Intuitive applications to increase productivity

What is MyCalls?

A complete call management solution, MyCalls provides detailed call activity, allowing you to respond to changing conditions in your business more quickly. Your workforce is your most important asset, and now you can manage your whole team from your PC desktop.

You can't manage what you can't measure

How much custom could missed calls be costing your business? Many companies don't know and have no means of finding out. With MyCalls, you can follow up missed and abandoned calls immediately, giving you the potential to avoid losing business to your competitors on a daily basis.

Advanced call recording

With MyCalls Call Recorder, calls can be effortlessly recorded and archived, providing an effective way of resolving disputes and a useful tool for staff training. With the advanced call recorder, small sections of a call can be named, colour coded and saved separately, enabling you to retrieve crucial information more quickly when needed.

“Claim back business from competitors on a daily basis”

Powerful Reporting

MyCalls offers a huge range of different reports which can be selected and scheduled to run at the time of day of your choice. Valuable information such as call volumes, durations and staff performances can be analysed, providing you with a tool for assessing your team and introducing motivational incentives.

With Director's Report, you will be provided with detailed updates of the most critical business information, sent automatically by email at the end of each day. This allows you to keep up to date, even when you are out of the office.

What is Desktop Suite Lite?

This productivity-boosting product has two different functions which can each deliver excellent business benefits;

The **Softphone** is a portable telephony application, offering you system phone functionality from your laptop, wherever you are; ideal for home and mobile workers.

The **Deskset** is an intuitive application providing full call control from a PC screen. With a click-to-dial facility, you can speed workflow while eliminating dialling errors. For Microsoft Outlook users, Deskset can even integrate with your Outlook contacts, providing a click-to-dial function within email for further time-saving benefits.
